

Dear Parents and carers,

I am very pleased to write to let you know that the Interim Executive Board (IEB) and The Pioneer Academy (TPA) have secured funding from the Local authority for some essential site works. These works will begin next week in various locations. See information and pictures below.

Mrs Berthoud

### Roof works

There are 10 flat roofs at Southborough. 8 of these need attention including replacing the fascia boards.

This work starts next in January with other works continuing after the Easter holidays.

**Current state of the roof**

### Parking on site

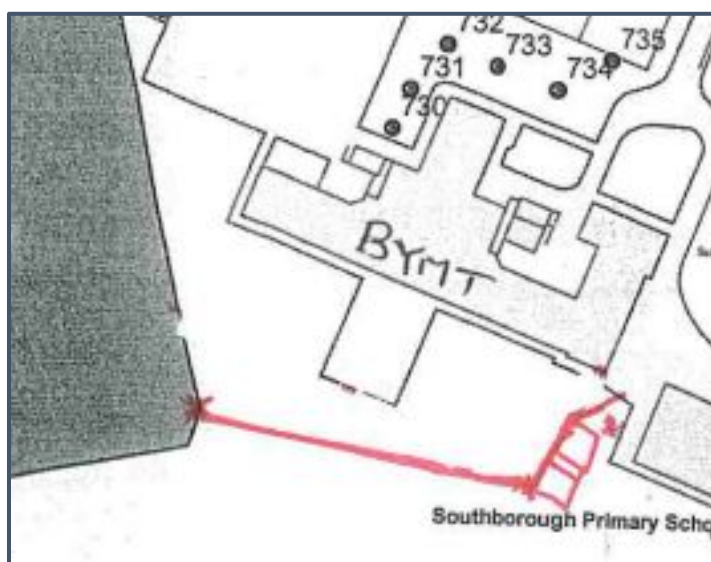

A reminder that BYMT is a private car park not to be used by parents at the beginning and end of the day. Nobody should be parking on the yellow lines either. Please ensure you leave plenty of time in the morning to park and walk to school on time for 8:45.

### Fencing

We are moving to secure the site to ensure across a whole 7 day week we minimise traffic around the whole building. On page 2 is the plan to add additional security at the back of the school and front of the school

This work is due to start in January

1. Perimeter fencing to school fields:
2. Front access area fencing to be installed
3. Back access fencing to be installed.
4. Fencing an area on the field for BYMT - to secure our site after school and at weekends.

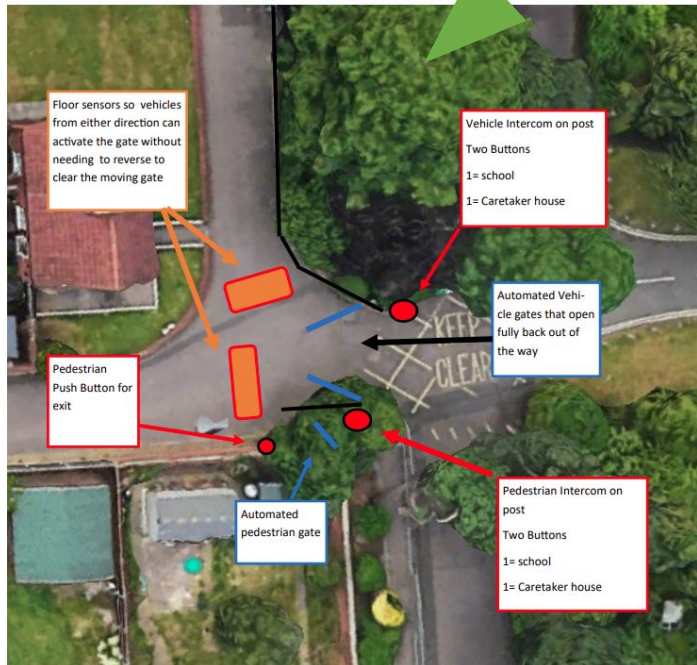

**Location of fence on field for BYMT**

## Automated Gates

We are installing automatic vehicle and pedestrian gates in order to add extra security to the site.

To gain access to the site you will have to buzz an intercom to be let in. The gates can be set to be automatically open at certain times of the day to make access easier.

This work is due to start in February.

## Fencing to the back of the school - Access to Preschool and Galaxy

Below is the plan to add additional security at the back of the school. You will see that there is a more secure way of monitoring traffic on the school site.

The plan shows a slight change to the pre school gate and a fence that will stop foot fall through our site.

Pre School parents will have to use the one main gate from Oxhawth crescent to gain access the pre school.

Galaxy parents can access via Oxhawth Crescent

## Fob system

Finally we are installing a new access system of fobs.

The front door and door into school will be fobbed and an entry system will be installed.
